RE: 4th Dimension Upfitting, 2525 S. Platte River Drive, Suite D, Sheridan, CO, 80110

To Whom It May Concern,

The Sheridan Police Department is pleased to offer this letter of support for 4th Dimension Upfitting. Our department has utilized this company for the upfitting of our police vehicles, and they have been outstanding in every aspect of their work. They have consistently proven to be professional, highly skilled, and extremely responsive to our needs.

Prior to handling our upfitting, we contracted with 4th Dimension Wraps and Graphics, to apply the decals to our police vehicles. The workmanship, professionalism, and customer service they have provided are rarely found in any field. The attention to detail and pride in their work were immediately evident and has remained consistently outstanding.

One particular instance clearly demonstrates their business philosophy and commitment to excellence. The owners contacted our department after noticing one of our patrol vehicles driving around our city with decals that were slightly peeling. They asked us to take the vehicle in for repairs. We informed them that they had not performed the work on that specific vehicle. Despite knowing it was not their work, they expressed concern that it could be perceived as theirs and they wanted to correct it. When we requested an estimate for the repair, they responded that they could not charge for the work, stating that while the graphics were still serviceable, they wanted them to be perfect.

This level of integrity and dedication to quality is exceptional, which is not the norm in our experience. As a result, it made absolute sense for our department to transition our vehicle upfitting to a company whose owners genuinely stand behind their work and consistently exceed expectations. As we anticipated, they have excelled in upfitting our vehicles and they have eagerly assisted us with issues we've had with work completed by others. Their commitment to customer satisfaction is literally second to none.

I strongly encourage any agency or organization seeking emergency vehicle upfitting services to allow 4th Dimension Upfitting the opportunity to earn their business. I am confident they will distinguish themselves well above the competition.

Respectfully,
